

IT'S HAPPENING AT STATE

January 13, 1999
NDSU

Presidential search concludes Thursday

The search for NDSU's 13th president ends Thursday following Board of Higher Education interviews with three finalists nominated by the search committee. Bruce Furness, search committee chair, presents the committee's formal report at 8:45 a.m., in the Prairie Rose Room of Memorial Union. At 9 a.m., candidate Fred Poston will be interviewed by board members and Chancellor Larry Isaak, followed by Joseph Chapman at 10:45 a.m. and Robert Kennedy at 1:30 p.m.

The board convenes in executive session at 3 p.m. to make the final selection. After a candidate has been selected and accepted the position, the board will reconvene in public session to announce the new president. Board members hope to do so around 6 p.m.

Finalists named in dean of business administration search

The search for the next dean of the College of Business Administration has been narrowed to four finalists. They are Michael J. Garrison, NDSU professor of business administration; Ronald W. Spahr, professor of finance at the University of North Carolina, Pembroke; Kenneth L. Kraft, associate dean of academic affairs and professor of management at Nova Southeastern University, Fort Lauderdale, Fla.; and Jay A. Leitch, interim dean of the NDSU College of Business Administration and professor of agricultural economics.

During January, each candidate will meet with students, faculty, staff, administrators and the search committee and present an open forum titled "Leading a College of Business Administration in the 21st Century: A Vision for the Future." The forums are open to the public.

"We have four good finalists with very diverse backgrounds for this position. We are hopeful that one will be selected to lead our College of Business Administration into the next century," said Charles Peterson, dean of the College of Pharmacy and chair of the search committee. "Hopefully we will have a final decision made by early February so that the new dean can begin on July 1, 1999."

Garrison, interviewed Jan. 12-13, is a professor of business law who has been a member of the NDSU faculty since 1980. He earned a bachelor's degree in economics from NDSU and juris doctor degree from the University of North Dakota School of Law. Garrison has received three national awards from the American Business Law Journal, the College of Business Administration Teacher of the Year Award in 1992, Apple Polisher Award in 1997 and the 1997 College of Business Administration Excellence in Research Award. He is immediate past presiding officer of the NDSU University Senate. Garrison's open forum is 1:30 p.m. Wednesday, Jan. 13, Loftsgard 380.

Spahr will visit NDSU Jan. 13-16. The Belk Distinguished Professor of Finance at the University of North Carolina, Spahr earned a bachelor's degree from South Dakota State University, Brookings; master of aerospace operations management degree at the University of Southern California, Los Angeles; and master of business administration and doctorate in finance at the University of Wisconsin, Madison. He was on the faculty of the University of Wyoming, Laramie, before moving to Pembroke last year. Spahr's public presentation will be 1:30 p.m. Friday,

Reception for new president planned for Friday morning

A campus reception for the new president and his spouse will be held at the Alumni Lounge of Memorial Union. All faculty, staff, students and friends of NDSU are invited.

Broadbanding system discussed

Mike Sandal, human resource director for the North Dakota University System, will discuss the broadbanding system, proposed in place of the current classification system, at Staff Senate 9:30 a.m. Wednesday, Jan. 13, Prairie Rose Room, Memorial Union. Staff and faculty are invited.

Administrative offices closed, no classes Jan. 18

Administrative offices will be closed and no classes will be held Monday, Jan. 18, in observance of the Martin Luther King, Jr. holiday in accordance with the State Board of Higher Education policy. Offices will open and classes will resume Tuesday, Jan. 19.

Y2K hardware inventory continues

The Y2K inventory of all campus equipment that is date sensitive is proceeding smoothly, according to Terry Wieland, Y2K steering committee member. Unit reps have been doing a good job of submitting information weekly, he said, and the campus is on track to complete the hardware inventory by the end of January. Forms should be submitted to Diane Clark, IACC 136.

Next Issue

Publication date: Wednesday, Jan. 20
Submissions due: noon Jan. 14
Old Main 204
Voice: 231-8326
Fax: 231-1989
bclemens@gwmail.nodak.edu

Jan. 15, University Chambers, Memorial Union.

Kraft, who will be on campus Jan. 24-27, earned a bachelor's, master of business administration and doctorate in business administration from the University of Maryland, College Park. He has taught at the University of Tampa, Fla.; Old Dominion University, Norfolk, Va.; and Southern Illinois University, Carbondale. He has published more than 40 papers and presented more than 25 papers at professional meetings. Kraft's forum will be 1:30 p.m. Tuesday, Jan. 26, University Chambers, Memorial Union.

Leitch will be interviewed Jan. 28-29. He has a bachelor's degree from Moorhead State University, Minn.; master's degree in natural resources management from NDSU; and doctorate in agricultural and applied economics from the University of Minnesota, Twin Cities. A recognized authority on wetland economics and policy, his vita lists 35 professional journal articles, 12 books, chapters or monographs and 125 other published material. He was selected for the NDSU Faculty Lectureship in 1995 and has received the Chamber of Commerce of Fargo Moorhead Distinguished Professor Award. His presentation will be 1:30 p.m. Friday, Jan. 29, University Chambers, Memorial Union.

The candidates' full vitae are available for review in the Office of the Vice President for Academic Affairs, Old Main 103, or Peterson's office, Sudro 123.

Memorial Union Gallery awarded \$600 grant

The Memorial Union Gallery has been awarded a \$600 Special Project grant from the North Dakota Council on the Arts for the exhibit "Dana Boussard: Between Places," scheduled to run Feb. 22-March 23.

The Special Project program provides support grants to non-profit organizations in North Dakota. Special Project grants provide an opportunity for organizations to initiate new projects without delay and to take advantage of possible touring events. The funding comes from a grant to the NDCA from the National Endowment for the Arts.

The grant will help provide funds to bring Boussard to NDSU to work with the campus community. Boussard is a nationally celebrated artist and has more than 50 commissioned art works permanently installed in facilities such as the MCI Communications Corporate Headquarters, the Federal Reserve Bank of Minneapolis, US West Corporation in Denver, the Montana State Justice Building, the Oregon Health Sciences Facility, the Anchorage International Airport and the Idaho Statehouse. Robert Redford and Carroll O'Connor are also collectors of Boussard's work, which is created by fabric that is cut and layered, then painted, hung on a wall and painted more. During the process the pieces are sewn together, arranged, rearranged and painted again until the piece is done.

The NDCA is the state agency responsible for the support and development of the arts and artists throughout North Dakota. It receives funding from the National Endowment for the Arts, the state of North Dakota, and interest income from the North Dakota Cultural Endowment Fund.

NDSU among top universities in royalty earnings

NDSU continues to rank among the nation's top universities for income from license fees and patent royalties. In a survey published in the Jan. 8 issue of the Chronicle of Higher Education, NDSU was listed as receiving \$1,019,322 during fiscal 1997, making it 55th in the country among research universities. In fiscal 1996, NDSU ranked 60th.

"We're pleased to see we've moved up in the rankings," said Dale Zetocha, director of the NDSU Research Foundation. "Although NDSU doesn't necessarily consider it as a competition with other institutions, it shows we are doing fairly well compared with other major universities. Compared to some other schools in the survey, we are still relatively small."

Much of NDSU's fees and royalties came from the 2375 wheat variety. Donated to NDSU in 1990 by Pioneer Hybrid, it became very popular because of its tolerance to scab. In the 1998 growing season, it accounted for 36.1 percent of the hard red spring wheat acreage in North Dakota.

Other protected and licensed varieties and patents controlled by NDSU during the survey period included Grandin wheat; Goldrush and NorDonna potatoes; Valley and Cleanleaf oats; Foster and Conlon barley; AUROC, Ben, Lloyd and Munich durums; Council soybeans; horticultural trademarks; polymers and coatings technology; and an analog for testing for the potential carcinogen Captan.

The University of California system was listed in the survey as the national leader, collecting more than \$61 million in royalties during fiscal 1997. Columbia University was second, with more than \$46 million.

"The numbers at NDSU continue to grow and we are making progress. However, we are in a field with other major universities who have much larger research budgets and that increases their opportunity for more licenses and patent," Zetocha said. "Hopefully the income received will supplement NDSU's funding."

The national licensing survey is conducted annually by the Association of University Technology Managers.

Student dies after car accident

An NDSU senior majoring in civil engineering died Dec. 25 following an automobile accident near his home. The funeral for Richard J. Adrian, 23, son of Ronald and Rebecca Adrian of Warren, Minn., was Dec. 29.

Alumni Association seeks nominations for achievement awards

The NDSU Alumni Association is seeking nominations for Alumni Achievement and Honored Alumnus awards.

The Alumni Achievement awards are presented to NDSU alumni who have excelled in their professional fields or areas of expertise. The Honored Alumnus Award is presented to one outstanding alumnus who has given outstanding volunteer service for the betterment of NDSU.

To nominate a candidate, contact Dorothy at 271-0892. Nominations are due March 1.

People

Sheridan and Nawrot receive James A. Meier professorships

The College of Science and Mathematics has announced the recipients of its two new Distinguished Professorship awards. Mark A. Sheridan received the Meier Full Professor Award, and Mark Nawrot received the Meier Junior Professor Award.

Sheridan

Sheridan, professor of zoology, has been at NDSU since 1985. He has published 48 refereed journal articles and has received nearly \$1.7 million in grants while at NDSU. He has conducted research with scientists from the United States, Brazil, Canada, Japan and Sweden. Sheridan has reviewed hundreds of manuscripts for scholarly journals and textbook publishers, and also works as a reviewer

of research proposals for granting agencies in the U.S., Canada, Israel and Hong Kong. He is a member of the state EPSCoR Steering Committee, and has served on several university and departmental committees. He has been named a Mortar Board Preferred Professor four times, he received the 1996 College of Science and Mathematics Award for Excellence in Research, and has been nominated for the Gunkleman Award. Sheridan received his bachelor and master's degrees from Humboldt State University, Arcata, Calif., and his doctorate from the University of California, Berkeley.

Nawrot

Nawrot, assistant professor of psychology, joined the NDSU faculty in 1995. Since then, he has received more than \$125,000 in grants for his research concerning eye movement and depth perception. His students, who have included an honors thesis student, two McNair students, three independent research students and five undergraduate assistants, speak of his enthusiasm and passion for teaching and

research. His vita lists 21 peer-reviewed papers, two book reviews, two software publications and 22 conference abstracts. He is a member of University Senate, and participates in a number of other campus committees and activities. He was named a Mortar Board Preferred Professor in 1998. Nawrot received his bachelor's degree from the University of Alberta, Edmonton, his master's from Northwestern University, Evanston, Ill., and his doctorate from Vanderbilt University, Nashville, Tenn.

The purpose of the Meier awards is to recognize faculty accomplishments at both the junior and senior levels; they are funded by NDSU alumnus James A. Meier, and recipients of the awards carry the title "James A. Meier Professor" for a three-year term. The junior professor award recognizes an associate or assistant professor who has contributed to teaching through research and interaction with students; its recipient receives a salary addition of \$2,500 for each of the three years. The full professor award honors a full professor who has contributed to teaching, research and service; it carries an annual salary addition of \$3,500.

Anderson publishes history study guide

Gerald D. Anderson, associate professor of history, recently published a study guide for Western Civilization. It is supplemental to *The Western Perspective*, by Philip V. Cannistraro and John J. Reich, published by Harcourt Brace College Publishers.

The Western Perspective is the first all new Western Civilization text published in several years and includes a number of new features. Published in two volumes, the first examines western civilization from prehistoric times to 1715, while the second volume continues to the present.

Anderson's study guide includes topical essays, review questions, map exercises and chronologies. It also includes 94 "Why Not?" segments, which ask students to imagine their courses of action if they had been participants in historical events. The study guide is also available as a computerized tutorial.

Anderson has served as a consultant to several Western Civilization and European texts published by HarperCollins, Houghton Mifflin and West Publishing Company. He has written *Fascists, Communists, and the National Government* and the novel *The Uffda Trial*.

Eyler elected to percussion board

David P. Eyler, director of percussion studies for Tri-College University, was elected to the board of directors of the Percussive Arts Society, an international organization of percussion students, teachers and professional percussionists. Eyler is a member of the society's College Pedagogy Committee and has served as secretary of the Percussion Ensemble Committee for the last four years. He is also the first vice president of the Minnesota chapter of the organization.

Eyler has been a member of the NDSU faculty since 1987. He also teaches percussion classes and lessons at Moorhead State University and Concordia College. Before coming to NDSU, Eyler directed elementary through high school concert and marching bands, university wind and jazz ensembles and symphony orchestras. He has been a guest soloist and conductor for many high school, college and community groups.

Events

Women's Studies Symposium to focus on North Dakota youth

DeHaan

Laura DeHaan, assistant professor of child development and family science, will lead this semester's Women's Studies Symposia featuring NDSU faculty research and scholarship. The first of four planned symposia this spring, DeHaan's presentation, "Challenges and Opportunities for North Dakota Youth," is scheduled for 3:30 p.m. Thursday, Jan. 28, in Loftsgard 380.

DeHaan's talk will focus on two areas of her research. First she will review her survey research on rural adolescents in which she found that rural North Dakota adolescents engage in risk behaviors at equal or higher levels than urban youth. In light of these findings, she will identify factors associated with risk and well-being for rural adolescents. The second part of her presentation will consider preliminary findings in a current study she is undertaking with her NDSU colleagues, Margaret Fitzgerald and Jim Deal. They are doing an in-depth analysis of two North Dakota rural communities that have similar populations, but report very strong differences in adolescent risk taking behaviors. DeHaan's discussion of this project will include the economic indicators, parental and community values, and adolescent perceptions that characterize these two communities.

DeHaan came to NDSU in 1994. She received her doctorate from Purdue University in child development and family science. Her doctoral work centered on the identity development of young adolescent students living in urban poverty, and her current teaching interests are adolescent development and how children cope with stress. Her current research looks at how rural environments, particularly rural poverty, affect adolescent development, and attempts to identify those factors in particular rural communities that most directly affect adolescent well-being.

Members of the campus community and the public may attend the symposium. For more information contact DeHaan at 1-8270, or Kathleen Slobin, director of women's studies, at 1-8939.

The next two Women's Studies Symposia will focus on women and work. David Danbom, professor of history, will present his paper "Who Gets to Work? Men, Women, and the Morality of Work in Fargo During the Great Depression," Feb. 11 at 3:30 p.m. in Loftsgard 380. Sarah Jacobson, associate professor of business administration, will present "Cracking the XX Files: Career Experience of Women Managers in Finland and the United States," March 4 at 3:30 p.m. in Loftsgard 380.

Memorial Union Gallery heads north to Winnipeg

In partnership with the Skill Warehouse program, the Memorial Union Gallery has organized a cultural trip to Winnipeg Feb. 12-15, the opening weekend of the Festival du Voyageur, a celebration of the heritage and "joie de vivre" of the fur traders and pioneers. The cost of the trip includes transportation, lodging, festival tickets, admission to the Winnipeg Art Gallery and a city tour featuring many of the architectural and cultural sites of the city.

The trip will depart from NDSU Memorial Union west entrance Friday at 12:30 p.m. and will return Monday early evening. Once registration and payment have been confirmed, more information will be sent.

Registration will be held during the Skill Warehouse Session I registration Jan. 14-15 in the Memorial Union Alumni Lounge. The cost is \$100 for NDSU students and \$125 for all others. A minimum of 10 and a maximum of 25 delegates will make the trip. Priority will be given to NDSU students.

For more information contact Peg Furshong at 1-8239.

Author to present Regional Studies Lecture

Award-winning author Ronald D. Block will present the 1999 Regional Studies Lecture, "Of Freaks, Book Clubs and the Unbearable Distances of the Plains," 7:30 p.m. Thursday, Jan. 28, Beckwith Recital Hall, Reineke Fine Arts Center. A reception and book signing will follow the lecture.

Block, who twice won the Minnesota Voices competition with his books "Dismal River: A Narrative Poem" and "The Dirty Shame Hotel: Stories," is an instructor at Mid-Plains Community College, North Platte, Neb. His poems have appeared in Ploughshares, The Iowa Review, New Letters and Prairie Schooner. Block's fiction and essays have been published in Short Story, North Dakota Quarterly, Current Biography and Making a Difference.

Block earned a bachelor's degree at the University of Nebraska, Lincoln, and both a master's degree in creative writing and literature and master's degree in telecommunications and film from Syracuse University, N.Y.

He was a lecturer at NDSU from 1984 to 1992, winning the 1991 Vogel Award for Excellence in Teaching. He also has taught at Milwaukee Area Technical College; Marquette University, Milwaukee; Harmony Hill College, Watertown, S.D.; and Syracuse University.

The lecture is part of a series called the Lyceum of the Liberal Arts, which includes the Catherine Cater Lecture in Humanities, lecture in Regional Studies, lecture in Women's Studies and the Red River Communications Conference keynote lecture. Organized by the College of Arts, Humanities and Social Sciences and NDSU, the series receives major funding from the North Dakota Humanities Council.

Block also will read from his works 7 p.m. Friday, Jan. 29, at Zandbroz Variety store, Fargo.

Radiation short course offered

The course "Laboratory Use of Radioactive Material" will be held 8 a.m. to noon Thursday, Jan. 21, in the Memorial Union Peace Garden Room. The course is designed for new or potential users of radioactive materials in the laboratory or field application. It also serves as a refresher course for those currently using radioactive materials.

Topics to be discussed include basic theory of radioactivity, biological interactions with radiation, radiation protection, minimizing exposure levels, rules and regulations, and safe handling, decontamination and lab procedures.

Steve Charlton, director of the NDSU occupational safety and environmental health office, will instruct the course. The cost is \$25 for NDSU and Cooperative Agreement Institution employees and \$50 for others. To register, call 1-7759.

Ag Communication to host information technology seminar

The NDSU agriculture communication department is hosting a campus-wide information technology seminar, 8:30-10 a.m. Wednesday, Jan. 20, in the Memorial Union Century Theater. Kevin Gamble, director of extension technology services at North Carolina State University, will present "How Information Technologies Are Changing the Way We Work."

Gamble will highlight national collaborative projects and their innovative use of information technologies. He will explore the critical need to establish working relationships across disciplinary, organizational and geographical boundaries to make such projects succeed.

Gamble serves as the director of Extension Technology Services at North Carolina State University. This department is one of the leaders in information technology in the land grant system. In addition to the programs it provides for CSU, it hosts Web sites for 4-H, ADEC, CYFERNet, the Sustainable Ag Network and others.

Gamble is a team member of CYFERNet, the Children, Youth, and Family Education and Research Network, and serves on the ADEC program panel. He is leading a collaborative project with technology educators from Iowa State University, NCSU, NDSU, Pennsylvania State University, Purdue University, and West Virginia University. The project "Teaching Teachers to Teach via the World Wide Web" will help university educators develop and deliver interactive World Wide Web-based instruction for non-formal courses.

Shorts and Reminders

Memorial Union hours Jan. 15-18

- The Memorial Union will close at 6:30 p.m. Friday, Jan. 15, and will remain closed Saturday and Sunday. The building will be open 1-11 p.m. Monday, Jan. 18, and will resume normal hours Tuesday, Jan. 19.

Business Office closed Jan. 20

- The Business Office will be closed Wednesday, Jan. 20, for Financial Aid disbursement. Departments are asked to hold their deposits until Thursday, Jan. 21.

- Positions open and their closing dates through the Office of Human Resources, Room 205, Old Main:

Bookkeeper/Test Coordinator/#0565
Counseling Center
\$15,700 minimum/year
Jan. 13

Information Processing Specialist III/#1705
Institutional Research
\$18,500 minimum/year
Jan. 19

Food Service Worker II/#4465
12-Month; M-F; 11:30 a.m.-8 p.m.; occasional weekends
Dining Services - Residence Dining Center
\$6.00/Hour
Jan. 12

Food Service Worker II/#1183
12-Month; M-F; 11:30 a.m.-8 p.m.; occasional weekends
Dining Services - West Dining Center
\$6.00/Hour
Jan. 20

Baker II
6 a.m.-2:30 p.m.
Dining Services
\$8.30/hour
Jan. 25

Cataloger/#0526
(Academic Librarian II)
Libraries
\$30,000+/year
Jan. 15

Position openings are also available through the NDSU web site at www.nodak.edu/human-resources/.

Research Opportunities

The Office of Research Administration in Old Main 201 announces the following funding opportunities and deadlines. For more information, call 1-8908.

Burroughs Wellcome Fund
BWF Visiting Professorships: 1999-2000
www.bwfund.org/scied.htm
Deadline: March 1

This program provides support for two programs: (1) BWF Visiting Professorships in the Basic Medical Sciences and; (2) BWF Visiting Professorships in the Microbiological Sciences. These \$5,000 awards enable institutions to bring in a distinguished scientist for up to five days to engage in teaching and discussion, as well as to deliver a keynote lecture on a subject pertinent to his or her discipline.

National Science Foundation
Child Learning and Development
www.nsf.gov/pubs/1999/nsf9942/nsf9942.htm
Deadline: March 15

Proposals are being solicited for this initiative which aims to support studies that increase our understanding of cognitive, social, and biological processes related to children and adolescents' learning in formal and informal settings.

National Endowment for the Humanities
Summer Seminars and Institutes
www.neh.fed.us/html/applying.html
Deadline: March 1

The National Endowment for the Humanities is requesting proposals to direct residential summer seminars and institutes designed to support faculty development and to provide teachers intensive summer study on important topics in the humanities.

Department of Education
IDEA Grants
www.ed.gov/legislation/FedRegister/announcements/1999-1/010499a.html

Deadlines: March 1 for research projects, personnel preparation and technology and media services projects; March 8 for technical assistance programs.

The Education Department is inviting proposals for four programs to improve services for children with disabilities. The programs are: research and innovation to improve services and results for children with disabilities; personnel preparation; technical assistance and dissemination; and technology and media services for individuals with disabilities.

U.S. Department of Energy
Energy Biosciences Program
www.er.doe.gov/production/grants/fr99_07.html
Deadline: March 3 - Preapplications

This program seeks studies to generate fundamental biological information about plants and non-medical related microorganisms that can support future energy-related biotechnologies. There are various areas of interest including, but not limited to: photosynthesis; control of plant growth and development; mechanisms of fermentation; and plant-microbial interactions.

Calendar

January

- 18 Martin Luther King, Jr. holiday, administrative offices closed, no classes
- 19 Administrative offices open, classes resume
- 20 Architecture/Landscape Architecture—Patrick Leong, AIA and Principal of Cybertects.SHEA—a division of SHEA Architects, Inc., "Custom Multimedia Solutions for Architecture," 5 p.m., Loftsgard 114
- 23 Spencer Borhen concert, 7:30 p.m., Memorial Union Gallery
- 26 Chemistry—Will Rees, Georgia Institute of Technology, will present a seminar at 3:45 p.m., Dunbar 152
- 29 Juried Student Art Exhibition, Memorial Union Gallery

February

- 2 Little Country Theatre free preview night for NDSU staff; call 1-7969 to reserve tickets; production "Baby with the Bathwater"
- 3 Architecture/Landscape Architecture—David Goehring, AIA and Principal of David Goehring Architects, LLC, "Dutch Modern Architecture and the Rebuilding of Rotterdam," 5 p.m., Loftsgard 114
- 3-6 Little Country Theatre production of "Baby with the Bathwater," 8 p.m. Askanase Auditorium; for tickets call ext. 1-7969
- 4 Chemistry—John Montgomery, Wayne State University, will present a seminar at 3:45 p.m., Dunbar 152
- 5 Willson and McKee concert, 7:30 p.m., Memorial Union Gallery
- 12-15 Tour of Winnipeg
- 15 President's Day, administrative offices closed, no classes
- 16 Administrative offices open, classes resume
- 22 Opening of "Dana Boussard: Between Places" exhibit, Memorial Union Gallery

March

Through March 23 "Dana Boussard: Between Places,"
Memorial Union Gallery

- 1 "Dana Boussard: Between Places" reception 4-6 p.m.
- 2 Brenda Weiler concert, 7-9 p.m.; \$5 admission
- 8-12 Spring break, no classes
- 15 Classes resume
- 22 Advising week begins for fall 1999 semester
- 22-26 International Week. For info. call 1-7895

April

- 2 Good Friday, administrative offices closed
- 2-5 Holiday/recess, no classes
- 5 Administrative offices open, classes resume
- 10 Tri-College Percussion Ensemble and Marimba Choir Spring Concert, 4 p.m. Festival Concert Hall
- 13 Little Country Theatre free preview night for NDSU staff; call ext. 1-7969 to reserve tickets; production, "Hedda Gabler"
- 14-17 Little Country Theatre production of "Hedda Gabler," 8 p.m. Askanase Auditorium; for tickets call ext. 1-7969
- 15 Chemistry—Robert Malecza, Michigan State University, will present a seminar at 3:45 p.m., Dunbar 152
- 29 Last day of classes
- 30 Reading/review day

May

- 3-7 Final exams
- 8 Commencement
- 10 On-site registration for standard four-week summer courses
- 11 Classes begin

13 Chemistry—Randy Halcomb, University of Colorado at Boulder, will present a seminar at 3:45 p.m., Dunbar 152

31 Memorial Day, administrative offices closed, no classes

June

- 1 Administrative offices open, classes resume
- 4 Last day of four-week classes
- 7 on-site registration for standard eight-week summer courses
- 8 Classes begin

July

- 4 Independence Day, Administrative offices closed, no classes
- 6 Administrative offices open, classes resume
- 30 Last day of summer classes
